HOW DO I RESCHEDULE A POSTPONED APPOINTMENT?

Patients who were postponed due to the shelter in place mandate have been rescheduled based on specific county reopening schedules. If you are ready to be seen by your Optometrist / Ophthalmologist and do not have a confirmed appointment, please call your Laser Vision Correction Center.

ARE TELEPHONE/VIDEO (VIRTUAL) APPOINTMENTS AN OPTION?

While some appointments require that you come in-person, we will conduct many consultations and check-up appointments virtually to minimize the potential spread of COVID-19. Please confirm with your Optometrist / Ophthalmologist if this option is available to you.

WHAT TESTING IS REQUIRED BEFORE A SURGICAL PROCEDURE?

If you are having a surgical procedure, you will be required to have a negative COVID-19 test result. Your physician will order the test for you.

WHAT ARE YOUR SAFETY REQUIREMENTS AND SANITIZATION PROCEDURES?

Anyone who enters the clinic is required to complete the COVID-19 screening process, including screening questions, temperature check, and hand sanitization. Masks are required to enter the facility; please do not wear gloves. All surfaces (e.g., reception, booths, etc.) are being cleaned after each patient leaves.

CAN I BRING SOMEONE WITH ME TO MY APPOINTMENT OR SURGERY?

One person may come with you, as needed. Please note that during these dynamic times we may ask that no visitors accompany you unless absolutely necessary during certain times during this COVID-19 pandemic. We thank you for your understanding.

To help us manage the number of people in the clinic at any given time, please arrive **on time** to your appointment.

Your health and safety are always our top priority. These guidelines were developed to help protect you and your loved ones while giving access to our services. If you have any questions or concerns, please [contact one of our Centers](#) for more information.
